Technical Projections and select comment

(as of the Thursday, October 31, 2013 US Close)

Equities: DJIA (cash): Interesting that DJIA has lagged so badly, and still stuck against 15,500 as S&P 500 hits serial new highs. Daily MACD UP even as weekly still DOWN.

RES: 15,500-40; 15,709.50; 15,865 (topping line); 16,150 (OSC)

SUPP: 15,350; 15,235-180; 15,000-14,945; 14,887.50-14,840; 14,790-50

DEC S&P 500 Future: 1,766-68 key DOWN CPR signal and 1,750-48 support. However, to understand the short term trend context you really need to watch this <http://bit.ly/16Spi4h>.

RES: 1,755-60 (OSC); 1,680-85 (long term topping line & OSC)

SUPP: 1,730-35; 1,700-05; 1,695; 1,685; 1,669-73; 1,652-56; 1,644

DAX (cash): Strong sister still leading others on significant new highs. Push above 8,689 and 8,770 high also exceeded 8,900 oscillator resistance with 9,100 next key level.

RES: 9,000; 9,100 (OSC); 9,240 (long term topping line)

SUPP: 8,900; 8,770 (old high); 8,680-89; 8,578-58 (gap & old hi); 8,500

FTSE 100 (cash): Weaker sister was improving quite a bit by Negating 6,700-54 area May DOWN CPR. Today's late selloff took it back there even as the weekly MACD turns UP.

RES: 6,700-54 ('07 hi); 6,838-75 (hi); 7,020 (OSC)

SUPP: 6,628-00; 6,532-00; 6,450-20; 6,390-77; 6,330-00; 6,275

DEC NIKKEI Future: Even above 14,500 area, 15,000 & 15,300 next major resistances not violated prior to drop back below 14,500. Yet 14,000 and 13,600 remain good support.

RES: 14,400; 14,500; 14,725-50; 14,900; 15,000; 15,310-35; 15,995

SUPP: 14,200; 13,950-14,000; 13,800; 13,600-560; 13,200

Government Bond Futures: It still seemed to be a bear market in spite of the sharply bullish short-term response to FOMC "no taper" QE surprise. And yet continued disarray in US politics around budget process brought the 'haven' bid back to primary govvnies. Even as partial US government shutdown cleared up, the T-note responded well on likely weakening of US GDP, and even post-FOMC selloff not convincing unless 126-16/-24 UP Break is negated. Even if it breaks, full Tolerance down into 126-00/125-21. Gilt and Bund also churning, with Gilt resistance upper 111; Bund above 141.00-.30 still looks firm.

DEC T-note: RES: 127-06/-16; 128-00; 128-14; 129-16; 130-00; 130-20 (12/08 hi)

SUPP: 126-16/-24 (UP Break); 126-00/125-21; 124-24/-16; 123-04/-16

DEC UK Gilt: RES: 111.75-.30; 112.50; 113.61-.28; 114.00; 114.50

SUPP: 110.50-.70; 110.20-109.84; 109.20-108.75; 108.15; 107.50

DEC Bund: RES: 141.00-.30; 141.50-.75; 142.50-.65; 143.30-.50; 144.00-.40

SUPP: 140.10-.30; 139.60; 139.00; 138.41 (SEP low); 138.00-137.60

Technical Projections and select comment

(as of the Thursday, October 31, 2013 US Close)

June 2015 Short Money Forward Futures: Well, with not just the new lead contract December futures but all of the futures through most of 2014 reflecting the very likely base rate stagnancy at very low levels, it is obvious that the real trend 'anticipation' for the short money is only in the far forwards. This is also thoroughly consistent with the 'macro' view coming from central bankers; like the folks at the Fed who have been very clear that nobody should confuse any (yet to be seen) tapering with an actual rate hike. That is also consistent of late with the major ECB departure from previous aversion to guidance, and the individual markets are reflecting the central bank 'country' sentiments. As such, no surprise strong sister Eurodollar pushed above recent 99.275 high and now 99.34, and Euribor above 99.38 and hefty 99.46 congestion; next resistance 99.53 & 99.60.

Eurodollar: RES: 99.40-.425; 99.47 (all-time hi)
 SUPP: 99.33-.34; 99.25-.29; 99.20; 99.12-.14; 99.06-.04; 99.00

Short Sterling: RES: 99.05-.09; 99.15; 99.20; 99.24; 99.34
 SUPP: 98.95-.98; 98.86-.85; 98.80; 98.75-.71; 98.60; 98.57; 98.51-.48

Euribor: RES: 99.53; 99.60-.62; 99.65 (all-time hi)
 SUPP: 99.46; 99.38; 99.33-.35; 99.25; 99.20; 99.15-.13; 99.04; 98.98

Foreign Exchange: US Dollar

USD INDEX: It was interesting to see daily MACD DOWN reversed on the June swing back above .8200. And yet, as the attempt to push above the more major mid-.8400 area resistance stalled, it fully reversed on the renewed consideration the US was 'easy' in wake of previous FOMC/Bernanke expressions... and more so on mid-September FOMC QE "no taper" shock and now US Employment. Finally back above .8000 may stabilize it for now, even if that means more of a trading range down to .7950 instead of a real bull.

RES: .8080-50; .8150-40; .8210-25; .8260; .8300
 SUPP: .8000-.7950; .7860-10; .7680-50; .7500; .7472-50

EUR/USD: Rally above 1.3450-1.3500 leaves 1.3650 s.t. support after mirror-image to US Dollar Index H&S Top attempt also destroyed by recent rally. 1.3710 overrun as expected, yet 1.3836 Fib resistance held. 1.3450-1.3550 support once again with daily MACD DOWN.

RES: 1.3711; 1.3836; 1.3900; 1.40-1.41; 1.4250; 1.4500-80
 SUPP: 1.3650; 1.3450-1.3550; 1.3350-00; 1.3200-50; 1.3150; 1.3080

GBP/USD: Finally pushing above prominent 1.5700-50 area and 1.5900-1.6000. Dip below the latter was s.t. DOWN Break critical resistance also obliterated by recent rally, and that is back to being support on that Negated DOWN Break and now weekly MA-9 and MA-13.

RES: 1.6150; 1.6250-80; 1.6300; 1.6379 (JAN hi); 1.6500-50; 1.6619
 SUPP: 1.6000-1.5950; 1.5880-1.5900; 1.5700-50; 1.5500-1.5450

Technical Projections and select comment

(as of the Thursday, October 31, 2013 US Close)

Foreign Exchange: US Dollar (continued)

USD/JPY: Even with BoJ aggressive QE acceleration, the confirmation Abe favors tax increases was likely to bolster the yen. Below 100 and 99 back in June left a 98.30 weekly channel DOWN Break, which was Negated. Of note last week yen strengthened after test of 97.00 critical support this side of major mid-93.00s. 98.80 still critical resistance.

RES: 98.80; 100.00; 101.45-25; 103.30-.80; 105.00-.50; 110.00

SUPP: 97.00-96.71; 96.00; 95.00; 93.50-.00; 90.90-.30; 89.40

AUD/USD: Weekly MACD back UP ever since mid-upper .9200 UP Break & Fibs, and after push above next low-.9500 Fib resistance it has seen .9700-50 area Fib and congestion. Even on current sharp reaction from that area, .9500 and low-.9300 to mid-.9200 support.

RES: .9581; .9705-50; .9850-10; 1.0000-.9950; 1.0150-00

SUPP: .9500-.9450; .9388 (OCT '11 low & channel); .9320; .9280-40

USD/CAD: Negated weekly up channel 1.0300 DOWN Break, yet stalled after squeeze above 1.0450. Trend is UP, yet weekly MACD maintains DOWN signal on weak bull action.

RES: 1.0450; 1.0550-75; 1.0658-81; 1.0750

SUPP: 1.0375; 1.0250; 1.0200-1.0182 (SEP lo); 1.0100-1.0085

USD/CHF: Finally a heavier failure below the .9250 Fibonacci and congestion on the FOMC 'no taper' surprise; more prominent resistance now. Yet the failure below major .9000 area reversed on recent strength, with .9179 reaction high now key resistance.

RES: .9100-.9078; .9179; .9250-.9180; .9370-.9422

SUPP: .9000-.8930; .8865; .8650; .8525-50; .8250-.8300

Foreign Exchange: Cross Rates: Europe weakened against Asia of late, but the Aussie is weak sister since last week's significant downside reaction. With the yen range bound, it is the other currencies trends which will determine those cross rates. Other currencies strengthening against pound now as GBP/USD back retesting 1.6000. EUR/GBP holding and rebounding from .8350 low end of gradual down channel to Close higher a month ago was UP CPR for further rally. Yet EUR weakness has it retesting mid-low .8400 area UP Break, Fibonacci and congestion. EUR/AUD rally back to 1.4500-50 area congestion and DOWN Break failure also looks like a swing down for a retest of mid 1.41 area.

EUR/JPY: RES: 134.00; 135.50; 137.00; 138.50-139.14; 140.00; 141.50

SUPP: 132.50-80; 130.80; 130.00; 127.94; 125.00-50; 124.00

GBP/JPY: RES: 158.30; 160.00; 162.60-163.11; 165.50; 167.80; 169.50; 171.25

SUPP: 156.75; 154.30; 153.00; 152.00; 150.00; 148.00

AUD/JPY: RES: 94.48; 95.00; 96.00-.20; 97.50; 99.00; 100.00; 102.00

SUPP: 93.20-92.80; 91.00-25; 90.00; 88.60; 87.00; 86.40-.20; 85.00

Technical Projections and select comment

(as of the Thursday, October 31, 2013 US Close)

Foreign Exchange: Cross Rates: (continued)

EUR/GBP: Pound regained strong sister status since summer. Repeated .8800 area euro failures led to drop below .8600 as well. Yet after pound failed to press advantage below .8400 area, .8550 critical resistance with the retest of the mid-low .8400 area the key now.

RES: .8475; .8550; .8650; .8700-50; .8800-30; .8880; .9000; .9085

SUPP: .8370-.8400; .8250-70; .8180-41; .8115; .8020-00

EUR/AUD: RES: 1.4400-1.4350; 1.4500-50; 1.4725; 1.4927; 1.5016;

SUPP: 1.4265; 1.4165; 1.4050; 1.3950; 1.3860-10; 1.3630; 1.3500

EUR/CHF: RES: 1.2325-50; 1.2420; 1.2490-1.2515; 1.2700; 1.3000-50

SUPP: 1.2285; 1.2220; 1.2156-20; 1.2030-00; 1.1800; 1.1720-00

Energy & Gold

December Crude Oil: Strength above 97.50-98.00 fueled by Mideast instability has been defused; failure now back below that area is critical. Failure just slightly above 98.30 last Tuesday Close gap is ugly. Back in entire lower range, with 93.00 and 91.50 congestion.

RES: 97.85; 99.40; 100.42-.00 (09/12 hi); 101.00; 102.25; 103.50-.00

SUPP: 96.00; 95.00-.50; 93.00-92.67; 91.50-.26; 89.50-90.50

December Gold: February major weekly downward channel (from last October's high) DOWN Acceleration below the 1,590 return line finally caught up with the yellow metal, in spite of extended reaction back above it in second half of March. Yet June slide below 1,302 major monthly channel on a DOWN Break and 1,278 Fib support was Negated in July, and that is a good reason the technical retest past several weeks met with strong buying after 'risk-off' debacle two weeks ago. Lots of gaps now, but all reinforces 1,300 and upper-1,200 areas as support. Interim resistance 1,362-78 much heavier into 1,420.

RES: 1,350-41; 1,362; 1,378; 1,420; 1,431-28; 1,478-71; 1,500

SUPP: 1,325-20; 1,317-00 (NEG DN Break); 1,278; 1,240; 1,180-62

We hope you find this helpful.
